

Beat the Flu! On-Site Flu Shot Clinics

Healthstyles and Macomb County Health Department are sponsoring flu clinics for current Macomb County employees again this Fall. Vaccinations will be administered by staff from the Macomb County Health Department Immunization Program.

Employees with Macomb County sponsored HAP, BCN, or BCBS PPO — bring a copy of your insurance card (front *and* back) and drivers license to your appointment. If you have insurance offered through Macomb County the flu shot is **FREE**. Employees without Macomb County insurance can pay out of pocket for the flu shot—\$20 (cash or check only).

Make sure to sign up for your appointment—register at: <http://signup.com/go/bRexZfR>

Vaccinations take less than 10 minutes! Employee Walk-ins will be accepted.

*Please note, the vaccine is administered in the upper arm, so wear short sleeves or clothing that allows for easy exposure of your upper arm/shoulder.

CLINIC TIMES AND LOCATIONS
